Google Dorking Report

Task 2: Find publicly exposed documents or directories from target domain using Google Dorks.

Prepared by: NIVEDA S

Google Dorking is a technique that uses advanced google search operators to find hidden or sensitive informations that websites unintentionally expose to the internet.

1.PDF Documents

- Query Used: site:github.com filetype:pdf

sample

- https://github.com/CESNET/UltraGrid/wiki/Media/Bob_ii_ig_v1_0.pdf
- https://raw.github.com/wiki/PhoenixBlack/Metrostroi/emzh3ru1.pdf
- https://github.com/PhoenixBlack/Metrostroi/wiki/isi.pdf

- Query Used: site:github.com filetype:pdf intext:"confidential"

Sample

- https://github.com/maidsafe-archive/MaidSafe/wiki/unpublished_papers/PeerToPeerPublicKeyInfrastructure.pdf_not_yet?raw=true
- https://github.com/sean-parent/sean-parent.github.com/wiki/presentations/2014-04-14-goal-complete-types/goal-complete-types.pdf

- Query Used: site:github.com filetype:txt
    - https://github.com/ohmybahgosh/RockYou2021.txt
    - https://github.com/mattheyan/time.txt

- Query Used: site:github.com filetype:zip
  No zip file is exposed

Google   site:github.com filetype:txt
